WHO WE ARE

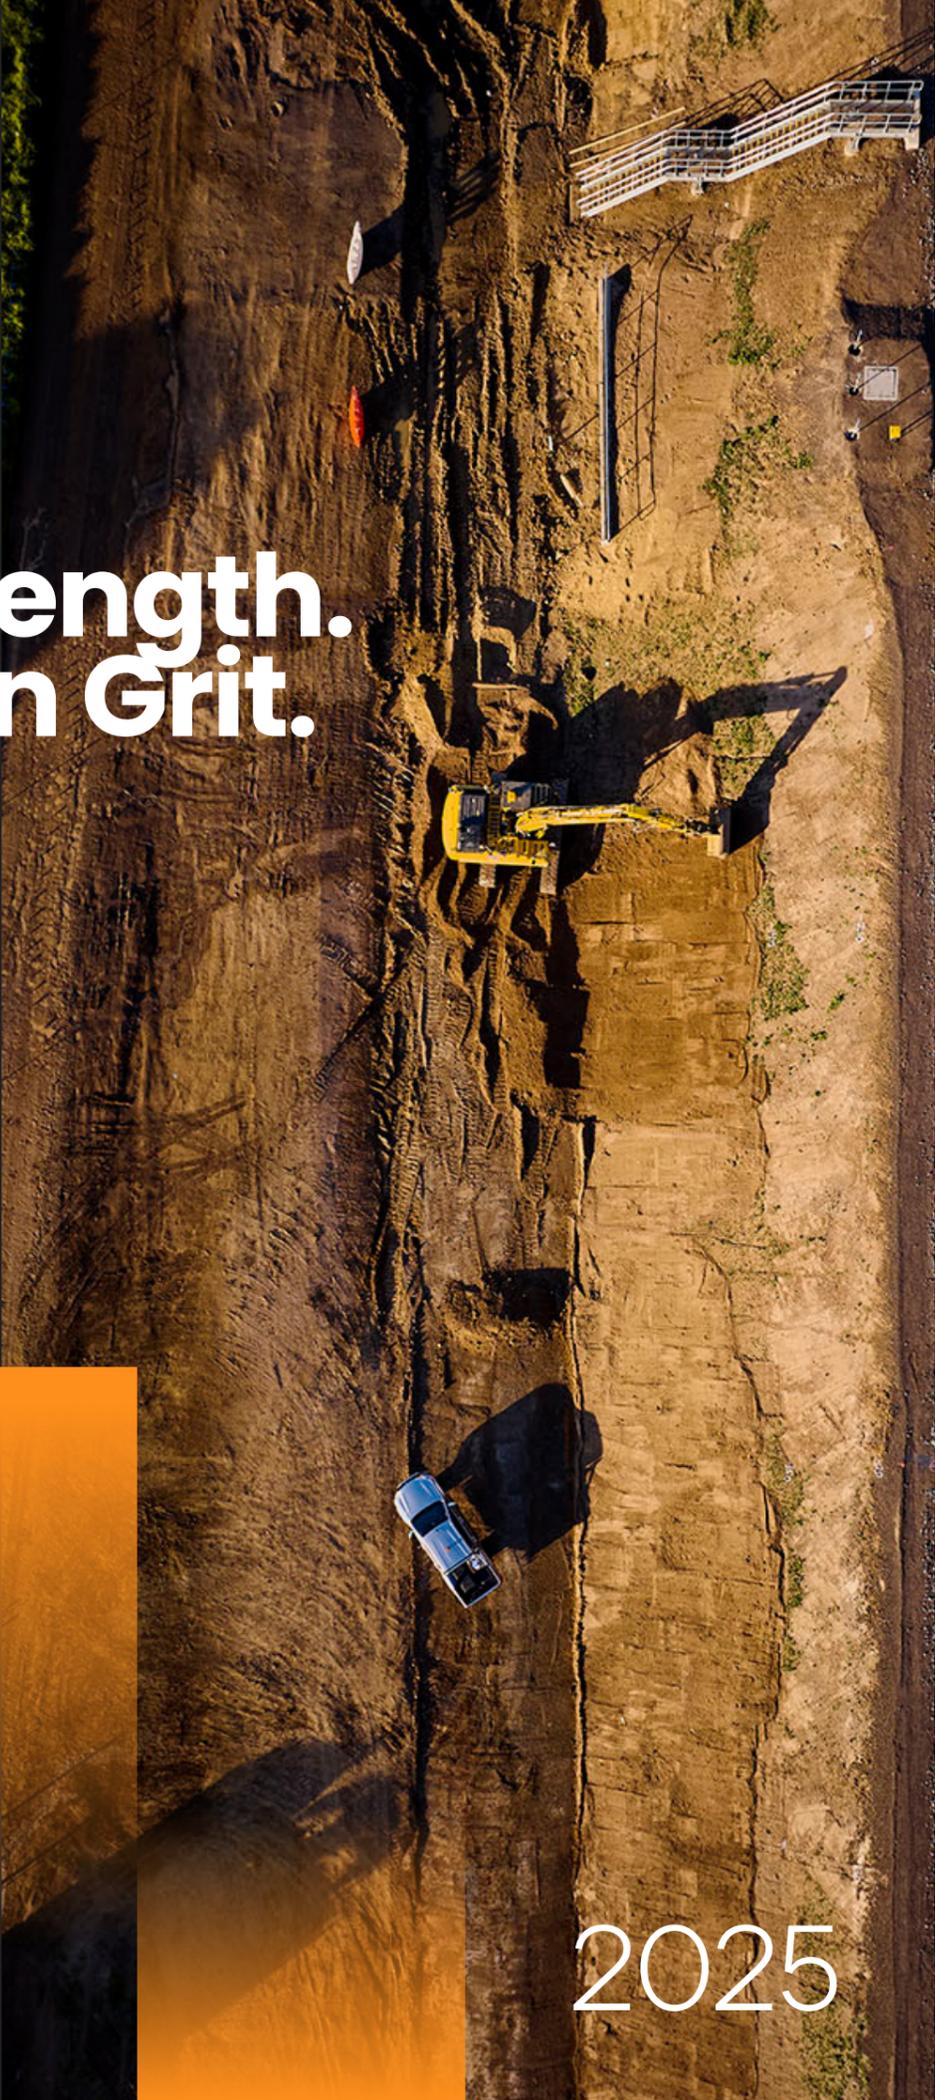

# Core Strength. Southern Grit.

SouthCore Infrastructure is a construction company specialising in the full range of civil infrastructure and utility works across the commercial, government and industrial sectors. With a commitment to delivery excellence, we have built a reputation based on reliability and a desire to achieve results.

# 01

**Capability  
Statement**

# 2025

## OUR HISTORY

Established 18 years ago as a family-owned and operated business in the state of Victoria, we have since evolved and developed extensively into a full-encompassing national civil construction company with a dedicated local workforce, a fleet of modern plant and equipment, and the energy and expertise to deliver high quality infrastructure.

## OUR VISION

Is to be recognised as a leading multi-disciplinary civil construction company that provides certainty for our clients, through excellence in delivery and positive engagement. Our culture is what sets us apart and our shared values are why we are the partner of choice.

# Why choose us?

BY PARTNERING WITH SOUTHCORE, YOU ARE NOT JUST GETTING ANY COMPANY BUT ONE WITH A COMMON GOAL; **TO PROVIDE VALUE FOR OUR CLIENTS AND TO MAKE A REAL DIFFERENCE IN THE COMMUNITY.**

Driving the success of the company are two fundamental objectives:

- To create long-term relationships with our employees, clients, stakeholders and communities;
- To provide high-quality services for our clients, measured by our performance and consistency in safety, technical excellence, innovation and delivery.

## WHAT SETS US APART?

### Our People and Culture

We have a highly-skilled workforce that are family and community-orientated, well-trained and engaged;

### Our Equipment

Our fleet of plant and equipment harnesses the latest technology and is fit-for-purpose, for all project types;

### Our Client and Community Relationships

Built on past performance and trust through repeat work, we value the communities that we operate in and take immense pride in all that we do;

### Performance and Innovation

We conduct ourselves to the highest level of safety standards, with a focus on continuous improvement, to ensure that we keep our people safe.

# Civil construction and utility infrastructure services across Australia.

## OUR SERVICES

# Specialising in the full range of civil infrastructure and utility works.

## Our business has extensive experience, specialising in the areas of:

### Earthworks

- Bulk and detailed excavation;
- Cut/fill;
- Formation, swales and batters;
- Land remediation;
- Environmental controls;
- Wetland construction;
- Compounds;
- Haul roads;
- Fire access tracks;

### Stormwater Drainage

- RCP/HDPE;
- Culverts;
- Subsoils;
- Cross-pollutant traps and pits;
- Water;
- Sewer;

### Roads

- Pavements and reconstruction;
- Roundabout construction;
- Signalised intersections;
- Retaining wall structures;
- Shoulder widenings;
- Turning lanes;
- Road safety improvements;

### Sub-Divisions

- Commercial & industrial development;
- Residential developments;

### Rail

- Station carparks and forecourts;
- Bus interchanges and loops;
- Rail access tracks;
- Combined service routes;

### Recreation Facilities

- Shared-user paths (architectural and standard);
- Sporting fields;
- Running tracks;

### Electrical Infrastructure

- Trenching;
- Conduits (electrical and communication);
- Light pole foundations;
- Public lighting;
- Cable hauling;
- Pole to pit work;
- Maintenance;

### Plant Hire Services

- Graders;
- Dozers;
- Wheel loaders;
- Excavators;
- Water carts;
- Posi tracks;
- Trucks;
- Crane trucks.

OUR CORE  
VALUES

# Reliability

- We trust in each other to do the right thing;
- We are consistent in our approach and performance;
- We are committed to ensuring we work safely.

# Respect

- We respect each other's ideas, thoughts and differences;
- We encourage a team-based culture;
- We are mindful of the way in which we talk to each other.

# Integrity

- We do the right thing by each other, our clients and communities;
- We hold ourselves and each other accountable;
- We value the work we do and the communities in which we operate;
- We continue to listen, learn and improve.

**We do the right thing by  
each other, our clients  
and our communities.**

Through our national business opportunities, we have had the privilege of collaborating with a diverse range of esteemed organisations.

# Our clients

Some of the companies we have had the pleasure of collaborating with:

# Our partnerships and affiliations

SouthCore Infrastructure values collaboration and partnership with organisations that share our commitment to excellence, safety, and the wellbeing of our team members.

Among our esteemed partners are:

# Training and competency

**Our people are our business, and we are committed to delivering our collective vision.**

We achieve outstanding results through a combination of experience, supervision and training in the following areas:

- Pipe-Laying Qualification;
- Cert III in Civil Construction;
- Confined Space Entry;
- First Aid (Level 2);
- Rail Track Awareness;
- CPR;
- Working at Heights;
- Safe Approach Distances;
- Trench Shoring Certificate;
- Mobile Plant Operation Training Certificate;
- Dogman/Crane;
- Manual Handling;
- Worksite Traffic Management Certificate;
- Polyethylene Welding Accreditation Certificate;
- Spotters Electrical Safety Training Certificate;
- Asbestos Awareness Training Certificate;
- VESI Trained.

## Accreditation and Quality Management

SouthCore Infrastructure holds ISO Accreditation in 9001:2015 Quality Management System, 14001:2015 Environment Management and 45001:2018

Occupational Health and Safety, which ensures risk and exposure is effectively managed across all our projects.

# Projects

## CIVIL CARPARK WORKS

This project involved the construction of a new, elevated station, which included the development of a new forecourt, the extension of the southern carpark and the establishment of a new bus interchange within the precinct. We were contracted to deliver the carparks, feature pavement works and bus loop interchanges.

**Scope: Rail station carpark upgrades, OCS, stormwater drainage, new bus interchange, architectural and standard footpaths, kerb and channel.**

## RAIL DUPLICATION WORKS

We were engaged to deliver the main station carpark upgrades at two regional train stations. The works included upgrading the stormwater drainage systems, providing new OCS and lighting in the carparks, installing new pavements, kerb and channel, creating shared-user paths, as well as performing new asphalt resurfacing and line-marking.

**Scope: Rail station carpark upgrades, civil and electrical upgrade, service routes.**

## ENVIRONMENTAL REHABILITATION

We facilitated a major program of environmental rehabilitation and rock soil erosion control works at a regional quarry. The project required the most skilled and experienced staff to operate plant equipment across challenging terrain. These complex works marked a new scope for our business, in large-scale remediation and protecting and managing environment.

**Scope: Earthworks, remediation, environmental controls.**

## DUPLICATION COMBINED SERVICE ROUTES WORKS

We delivered over 8km of the main combined service route/local cable route and ULX infrastructure, providing electrical, communications, and data linkage across this regional duplication network. We undertook all major lines for the signalling team and accomplished this with a combined multi-skill workforce.

**Scope: Electrical and communication combined service routes and local cable routes (CSR/LCR)**

# Projects

## STAGE 1 ROAD WORKS

We were engaged to deliver all stormwater drainage infrastructure for regional Stage 1 works. Working closely with industry partners Decmil and BildGroup, we facilitated and completed the works well ahead of schedule.

**Scope: Stormwater drainage infrastructure and various plant hire services.**

**We have built a reputation based on reliability and a desire to achieve results.**
